Data Completeness Report

Notes: (1) Variables are individually listed only if they have greater than 5% missing data. These variables are listed under the appropriate percentage category in the order in which they appear in the data file. (2) The Data Completeness Report only captures information about system missing or other values that are declared missing. Codes that have a label implying that they are missing but that are not declared missing values are not reflected in this report. Data users should consult the codebook for more specific information about missing values. (3) Some variables that have 100% missing data may have been blanked by ICPSR to protect respondent confidentiality. Data users should consult the codebook for more specific information about blanked variables. (4) Data do not contain skip patterns or skip patterns are not reflected in the data as coded.

Table 1: Distribution of Variables by Percentage of Missing Values--Urban Household Income, Consumption, and Employment Data

Variable Name and Label (Total Cases = 6835)		Percent of Cases with Missing Values
45.5% (40 of 88 variables)	have 0% Missing Values	
26.1% (23 of 88 variables)	have 0% - 1% Missing Values	
9.1% (8 of 88 variables)	have 1% - 3% Missing Values	
0.0% (0 of 88 variables)	have 3% - 5% Missing Values	
15.9% (14 of 88 variables)	have 5% - 10% Missing Values	
SF1	Year of birth (Father of spouse)	8.2%
SF2	Survival or not? (Father of spouse)	6.5%
SF3	Educational level (Father of spouse)	6.1%
SF4	CCP or other party member? (Father of spouse)	6.1%
SF5	Occupation (Father of spouse)	6.2%
SF6	Did they engage in any kinds of industry and commerce? (Father of spouse)	6.2%
SF7	Chengfen (social status) classified in the time of land reform (Father of spouse)	6.5%
SM1	Year of birth (Mother of spouse)	7.8%
SM2	Survival or not? (Mother of spouse)	6.3%
SM3	Educational level (Mother of spouse)	6.1%
SM4	CCP or other party member? (Mother of spouse)	6.0%
SM5	Occupation (Mother of spouse)	6.4%
SM6	Did they engage in any kinds of industry and commerce? (Mother of spouse)	6.1%
SM7	Chengfen (social status) classified in the time of land reform (Mother of spouse)	6.4%
2.3% (2 of 88 variables)	have 10% - 20% Missing Values	
H502	Member code of person to whom rental house was assigned	16.3%
H504	If you bought your own house, what was the type of price you paid	15.9%
0.0% (0 of 88 variables)	have 20% - 40% Missing Values	
1.1% (1 of 88 variables)	have 40% - 99% Missing Values	
H608	If you are 'not very happy' or 'not happy at all', what is the main reason?	85.9%

Table 1: Distribution of Variables by Percentage of Missing Values--Urban Household Income, Consumption, and Employment Data

Variable Name and Label (Total Cases = 6835)		Percent of Cases with Missing Values
0.0% (0 of 88 variables)	have 100% missing values	

ICPSR 21741

Chinese Household Income Project, 2002

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Chinese Household Income Project, 2002

Urban Household Income, Consumption, and Employment Data

PCODE	Household number
-------	------------------

Location: 1-10(width: 10; decimal: 0)

Variable Type: numeric (ISO)

- Mean: 3679780727.24
- Minimum: 1101010021.00
- Maximum: 6227010101.00
- Standard Deviation: 1480131319.88

Based upon 6835 valid cases out of 6835 total cases.

H401	Total financial assets
------	------------------------

Location: 11-20(width: 10; decimal: 2)

Variable Type: numeric (ISO)

Question: Household assets, liabilities and expenditure: Amount at the end of 2002 (Yuan) Total financial assets

- Mean: 39735.99
- Minimum: 0.00
- Maximum: 3120000.00
- Standard Deviation: 85422.58

Based upon 6835 valid cases out of 6835 total cases.

H402	Fixed deposits
------	----------------

Location: 21-29(width: 9; decimal: 2)

Variable Type: numeric (ISO)

Question: Of which (1) Fixed deposits

H507 Minimum household living expenses per month (Yuan)

Location: 238-246(width: 9; decimal: 2)
Variable Type: numeric (ISO)
Question: According to your actual situation, please estimate how much household living expenses per month are needed to maintain a minimum living standard in 2002? (Yuan)

- Mean: 1213.43
- Minimum: 0.00
- Maximum: 540200.00
- Standard Deviation: 6628.99

Based upon 6835 valid cases out of 6835 total cases.

- Study 21741 -

H507A Minimum living expenses per month: For food (Yuan)

Location: 247-250(width: 4; decimal: 0)
Variable Type: numeric (ISO)
Question: in which:(507a)For food (Yuan)

- Mean: 499.91
- Minimum: 0.00
- Maximum: 3000.00
- Standard Deviation: 273.59

Based upon 6835 valid cases out of 6835 total cases.

H507B Minimum living expenses per month: For clothes (Yuan)

Location: 251-254(width: 4; decimal: 0)
Variable Type: numeric (ISO)
Question: (507b)For clothes (Yuan)

- Mean: 101.51
- Median: 100.00
- Mode: 100.00
- Minimum: 0.00
- Maximum: 1596.00
- Standard Deviation: 100.07

Based upon 6835 valid cases out of 6835 total cases.

H507C Minimum living expenses per month: For housing (Yuan)

Location: 255-261(width: 7; decimal: 2)
Variable Type: numeric (ISO)
Question: (507c)For housing (Yuan)

- Mean: 107.09
- Minimum: 0.00
- Maximum: 4800.00
- Standard Deviation: 131.68

Based upon 6835 valid cases out of 6835 total cases.

H507D Minimum living expenses per month: For education (Yuan)

Location: 262-268(width: 7; decimal: 2)
Variable Type: numeric (ISO)
Question: (507d)For education (Yuan)

- Mean: 136.94
- Median: 90.00
- Mode: 0.00
- Minimum: 0.00
- Maximum: 2800.00

- Study 21741 -

- Standard Deviation: 197.96

Based upon 6835 valid cases out of 6835 total cases.

H507E Minimum living expenses per month: For health care (Yuan)

Location: 269-275(width: 7; decimal: 2)

Variable Type: numeric (ISO)

Question: (507e)For health care (Yuan)

- Mean: 90.08
- Minimum: 0.00
- Maximum: 4200.00
- Standard Deviation: 136.97

Based upon 6835 valid cases out of 6835 total cases.

H507F Minimum living expenses per month: For other expenditures (Yuan)

Location: 276-282(width: 7; decimal: 2)

Variable Type: numeric (ISO)

Question: (507f)For other expenditures (Yuan)

- Mean: 144.35
- Minimum: 0.00
- Maximum: 2700.00
- Standard Deviation: 177.47

Based upon 6835 valid cases out of 6835 total cases.

H508 First contact in case of sudden monetary emergency

Location: 283-283(width: 1; decimal: 0)

Variable Type: numeric (ISO)

Range of Missing Values (M): 0

Question: If your household encounters difficult abruptly and need 10000 Yuan RMB immediately, who are you intend to turn to firstly?

<i>Value</i>	<i>Label</i>	<i>Unweighted Frequency</i>	<i>%</i>

Based upon 6835 valid cases out of 6835 total cases.

Data and Variable Label Problems

Part 2

The materials provided by the Principal Investigators were insufficient to conclusively determine the meaning of all of the variables and values in this study. This is a list of problems or potential problems identified by the ICPSR processor. Where it is relevant, the action taken by the processor (such as marking inappropriate values as missing) is also listed.

Variable Names in Datafile	Problems Identified
various	The questionnaire says that missing values are coded as 1.9, but there are no instances of 1.9 values in the data.
various	The data contain zeros which don't make sense unless they are missing values. (They have been marked as missing.)
h503, h503a	Zeros don't seem to represent actual property values of zero, since there are cases with positive values for potential rent but zero for potential market price. These should probably be treated as missing values.
pop2003, pop2002, errtype1	These variables were not found in any questionnaire, nor could they be labeled intuitively.
